

Primary wellbeing, made gentle.

Everything your school needs to deliver the new Primary Wellbeing Specification (SPHE & PE): warm, low-prep lessons with their own illustrations, one-tap pupil reflection, and the evidence for your Cuntas Míosúil and SSE. All in one place. You don't need a textbook.

39 lessons across five strands

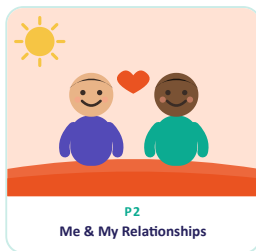

Built to the NCCA 2025 specification

Movement & Me

MADE FOR PRIMARY, NOT SHRUNK DOWN FROM POST-PRIMARY

Think · Pair · Story · Share

A gentle four-step rhythm built for the primary classroom: think on your own, turn and talk, share a story, then a short reflection. Calmer and warmer than the post-primary structure, because 9-to-12-year-olds aren't small teenagers.

Every lesson has its own picture

Each lesson carries an illustration tied to its learning outcome, on the lesson card, the slides and the downloadable PowerPoint and PDF. No clip-art hunting the night before.

One-tap reflections

Pupils answer with a tap and a few words. Drawing counts as reflecting at this age. Low friction, low reading load, no blank-page dread.

A "Well done!" for every child

Every reflection ends with a celebration, a little confetti and a warm message, so each child feels they did something good. Wellbeing should feel good to do.

What your school gets, from day one

- ✓ 39 lessons for 3rd–6th Class, across all five strands
- ✓ Every lesson as a printable plan: PowerPoint and PDF
- ✓ Coordinator year plan and scheme of work for Rang 3–6
- ✓ A parent letter you can send, explaining it in plain English
- ✓ Whiteboard presenter mode — open it and teach, no prep
- ✓ Pupil reflections with warm feedback the teacher signs off
- ✓ SSE, Cuntas Míosúil and DEIS evidence, generated as you go
- ✓ Every lesson, prompt and piece of feedback available in Irish

The wellbeing paperwork, already done

Prime keeps the evidence quietly in the background, in the primary frameworks your school already reports against — so the record builds itself while the lessons are being taught.

NCCA Primary Wellbeing Specification

Lessons map to the 2025 specification (SPHE + PE) across its strands: Wellbeing, Relationships, The Wider World, Growing & Changing, and Movement.

Cuntas Míosúil, sorted

Every lesson is tagged to its strand and learning outcome, so the wellbeing line in your monthly Cuntas Míosúil writes itself.

SSE that fits primary

Self-evaluation uses “Looking at Our School 2022” (Primary) and the four Wellbeing areas, not the post-primary framework. Your coordinator portal only ever shows the primary version.

DEIS, the primary way

DEIS reporting recognises the primary bands — Urban Band 1, Urban Band 2 and Rural — so a DEIS primary school sees the right language, not post-primary terms.

FOR THE CHILD

A calm, friendly place to think about how they feel: one tap, a few words or a drawing, and a “Well done!” every time.

FOR THE CLASS TEACHER

Open the lesson, project the slides, press go. Illustrations, talking points and teacher notes are already there — minutes of prep, not an evening.

FOR THE COORDINATOR

A primary-only portal: SSE, Cuntas Míosúil and DEIS evidence in primary language, with nothing borrowed from post-primary.

Your school stays in control of the sensitive strand

Growing & Changing (Strand 4) is off by default and switched on by your school, when your school is ready and your policy and parents say so. And if a reflection suggests a child needs a second look, Skilly raises it for a named adult to review — it never diagnoses, labels, or acts on its own.

HOW YOUR SCHOOL STARTS

1

Send us your class list

One CSV of pupils and teachers. We set the school up — you don't configure anything.

2

A short remote launch

One session with your staff, roughly half an hour. Most teachers are away after it.

3

Teach the first lesson

Open it on the whiteboard that same week. The evidence starts building from lesson one.

Lessons across the
five strands

Have a look before you talk to anyone.

The demo drops you straight into a real primary school — lessons, pupil view, coordinator portal — with no sign-up and nothing to install. Or book a 30-minute walkthrough and we'll go through it with your team.
